Professional Summary:

Innovative, result-oriented Senior AI Research Engineer with 6+ years of experience designing, training, and deploying AI models.

Skills:

Python, C++, SQL, JavaScript, Bash, PyTorch, TensorFlow, Hugging Face, NumPy, Pandas, Docker, Kubernetes

Work Experience:

- Senior AI Engineer | Cognitive AI Systems (2023-Present)
 - * Directed migration of model training infrastructure to GPU clusters, improving throughput by 45%.
 - * Designed and built NLP microservices using Python and Flask, serving 1M daily requests.
- Machine Learning Developer | DataPulse Analytics (2020-2023)
 - * Engineered Flask APIs, facilitating real-time synchronization between CRM databases.
 - * Optimized neural network inference response time, lowering latency by 140ms.

Education:

- Master of Science in Computer Science | University of California, Berkeley (2018-2020)

Projects:

- Apex Language Engine: Asynchronous model cache with Redis. Fine-tuned 7B parameter models.
- ResuFit Optimizer: Real-time resume parser using PyMuPDF and Llama-3 API.

Certifications:

- AWS Certified Solutions Architect
- Deep Learning Specialization
